Nowadays continuous incidents, terrorist threats, catastrophic events have strongly underlined the need to plan and organize better responses to emergency situations.

The track offers the possibility to present scientific results and critical issues concerning emergency responses procedures using Modeling and Simulation.

**Topics**

- Simulation and testing of emergency scenarios
- Personnel training through Simulation;
- Modeling & Simulation of human crowd behavior;
- Modeling & Simulation of critical incidents;
- Synthetic and Virtual Environments for emergency situations;
- Medical emergency Simulation;
- Police, fire emergency Simulation;
- Emergency response Simulation;
- Simulation games for incidents and threats management;
- Modeling & Simulation of terrorist attacks;
- Modeling & Simulation of natural disasters;
- Emergency management systems;
- Emergency response Simulation in supply chain and logistic networks.

**Submission Guidelines**

Contributed papers are 8-10 pages long. They will be peer reviewed and – if accepted and presented at the conference - submitted to the ACM Digital Library.

Posters will be peer reviewed and feedback will be provided. If accepted, they will be presented in the poster session of SummerSim’15. Poster authors are encouraged to submit a one page summary for inclusion in the proceedings, but they will not be submitted to an indexed archive.
